~~Reg. Labeling of genetically modified foods~~

Dear Ms. Henney,

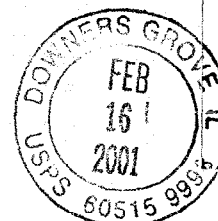

I like to encourage you and your agency to make it mandatory in labeling all genetically modified foods. I will not shop anymore in stores that offer products that are not labeled and I will encourage my family and friends to only shop at organic markets as well. The adoption of strict regulations for the health and safety testing of GMO's is imperative. We need requirements for comprehensive assessments of environmental risks associated with GMO's . Please let me know what you are planing in the near future regarding these problems.

With regards,

Tanja Woods
